

Secco Sistemi was founded in 1947 in Treviso, just North of Venice. An Italian market leader in glazing systems, they are the only company to manufacture profiles in four materials: galvanized steel, stainless steel, corten steel and architectural bronze (burnished brass).

The Evolution of Steel Windows

Secco Sistemi produce over 2 million linear meters of profiles every year and can boast 60 years of experience and commitment to high quality products and continuous innovation in steel glazing systems.
